Inspire, Coach and Volunteer!

Volunteers open the world to our students. By sharing your professional and educational path you help students learn about opportunities and possibilities for the future.

You make an **IMPACT**

You give our students an outside professional perspective and help support their goals for graduation and the future.

- **Career Preparation** - Share your own career path and help students sharpen interview skills.
- **College Preparation** - Talk about your college experience and help develop students college essays.

I was so nervous before my mock interview, I could barely introduce myself. Lucy, the volunteer, made me feel comfortable and gave me great tips on how to talk about my interests and experience. Now I feel ready for the real thing.
